About the Challenges and Tests

These challenges and tests have been written with a World War 2 context. They may be used to compliment a topic on WW2, or the context may simply offer your pupils a welcome and fresh change from the norm of the usual random sentence examples given in a spelling test.

They could be used in a number of ways, including warm ups to Literacy or topic sessions, as well as homework.

All 102 words from the Year 5/6 Spelling List are included and the challenges and tests run in alphabetical order based on the list.

There are 20 challenges and 20 tests. Each challenge and test has five questions, apart from the last one, which has seven.

I hope you and your pupils find them useful.

Please keep checking the Wartime Reflections website and our TES for our resources.

We are currently working on a WW2 themed Challenge and Test pack for the Year 3 & 4 Spelling List and a Maths pack for Year 6.

Challenges

Circle the correct spelling of the missing words

Challenge 1

About Wartime Reflections

What better way to launch or enhance your topic than with hands on activities involving real artefacts and activities from the war period?

I offer a variety of workshops, giving you flexibility to select the activities that suit your needs.

To find out what we can offer you visit our website at:
